AV REQUIREMENTS

Darius takes his commitment to your group quite seriously. He understands that you have invested a great deal of time, money and energy into your event, and would like to offer you some suggestions to make sure you receive the maximum return possible on your investment by receiving the best presentation possible.

Mics & Tables

- Darius prefers a behind the ear mic when possible. Please make sure that the AV department has a back-up microphone available at all times. Our suggestion would be to have someone from your group assigned to the microphone system should any adjustments be needed for volume, bass, feedback, etc.
- Darius uses PowerPoint during his presentation. He will need a projector and connecting cord for his PC computer within range of his remote control for changing slides.
- Please have water available for Darius
- Audio and/or video taping is available with **PRIOR WRITTEN AUTHORIZATION**. This includes any modification to the presentation. If the presentation is edited or cut in any way for public use, Darius must approve it before release.
- Please have a table available for Darius' products and someone available to assist him during the day of his presentation.

Successful Meeting Tips

- Theater or classroom seating is preferable. We understand that when planning on or around a meal, this is not possible.
- If the event is in a hotel, for the benefit of your audience, and Darius, please request from the hotel or auditorium management that the meeting room have no distracting noise from an adjoining room, such as a singing group, rock band, etc. during the time Darius is presenting his keynote or seminar.
- It is difficult to build intimacy and rapport if your audience is still eating. Please instruct the banquet staff to clear up **AFTER** the speaker's presentation.
- When a photographer is present, please ask them to refrain from taking photos the first 15 minutes of the program. This can be distracting to the speaker and audience.
- Please make sure the room is well lit especially the staging area. People remember more and laugh more in bright rooms. Darius prefers to see the faces of the audience. This allows him to see how they are responding to his presentation.

“Darius has been a light in my life and a pillar of my foundation over the last year. I owe a great deal of gratitude to Darius for his continued efforts, his encouraging words, and excellent guidance and leadership.
